#opendoortravellerscheme

Hello and welcome, the kettle is on!

Smile, Cuppa, Conversation. Be you a lone traveller, couple or family, when you are traveling it's sometimes hard to know who fancies a chat and who is on holiday to get some peace and quiet from others. The Open Door Traveller Scheme is a free printable you can put up in your motorhome any time you are open to conversation. It's meant as a friendly beacon to encourage mini connections while travelling. Remember smiles are contagious

A few guidelines for a smooth welcome:

- Green side = knock, say hi, let's chat
- Red side = usually I'd love to chat but I'm a bit busy at the moment, try again when I'm green
- Put the sign in an easily visible place - passenger side windscreen is a good option
- Biscuits and cake are not guaranteed
- Please respect each other
- Don't be predatory
- Don't be offended if not invited in - different people have different personal space. A hello outside can be just as nice
- Some hellos are quick, others a bit longer - take care not to overstay your welcome
- Only knock if the green sign is visible at time of knocking (they may have taken it down to focus on dinner or fold socks)

While 99.9% of people are lovely, we have some safety tips to consider:

- Trust your instincts
- Be especially careful if on your own
- Don't invite in if don't feel comfortable
- You are not obliged to do anything

If you would like to help grow the community please visit the Facebook Page to:

- Mention the scheme at campsites/rally's/groups - I'm always happy to email over the sign template
- 'Check in' and see if others are nearby
- Share your experiences
- Share the FB page with friends and other groups
- Use the hashtag #opendoortravellerscheme

The necessary terms and conditions:

We've provided safety tips to help keep you safe, however it is important you assess every opportunity and interaction. By displaying the sign you acknowledge we aren't liable for any damage (of any kind) or harm through participating in the scheme.

The scheme is administered by Doxden Environmental, company number 07227073 as a not for profit project.
